

Clonskeagh & Swords

Sims IVF is at the forefront of advanced infertility testing – we offer a number of tests that other clinics in Ireland simply do not provide – and new treatments are being pioneered and introduced all the time. Costs and treatments between clinics do vary, so it is important to have clarity to help you to make an informed choice. We strongly believe in transparency over pricing – the list below is our headline pricing. Please check with your individual clinic for an extensive list of our prices. Please note pricing is subject to change.

PAYMENT POLICY

Patients are asked to note that payment is due prior to each treatment cycle. No further procedures or investigations will be carried out if any invoices are still outstanding. For more information on our IVF pricing, please contact us. We accept most major credit cards. Please note that we no longer accept cash or cheque payment.

Prices are subject to change. Prices listed are applicable from 1st June 2021. 'Med 1' forms are available on line: www.revenue.ie

Cycle prices listed below, include Cycle Monitoring Bloods at first and final scan. A cycle co-ordination & monitoring fee of €1,000 (non-refundable) is included in IVF, ICSI and Egg Freezing cycles.

*The asterisk denotes that this procedure is only carried out in our Clonskeagh clinic presently.
